

## ELASTOMER HANGERS

AVH Series are light duty economical hangers with small rubber elements fitted in steel housings. All metal AVH housing frames are painted for better resistance to corrosion.

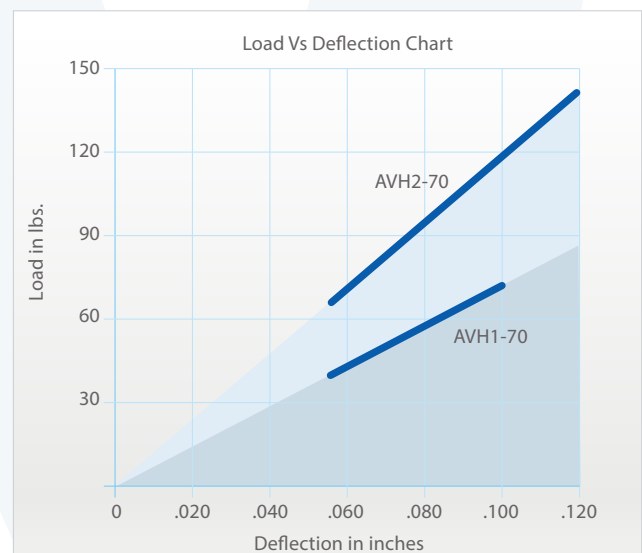

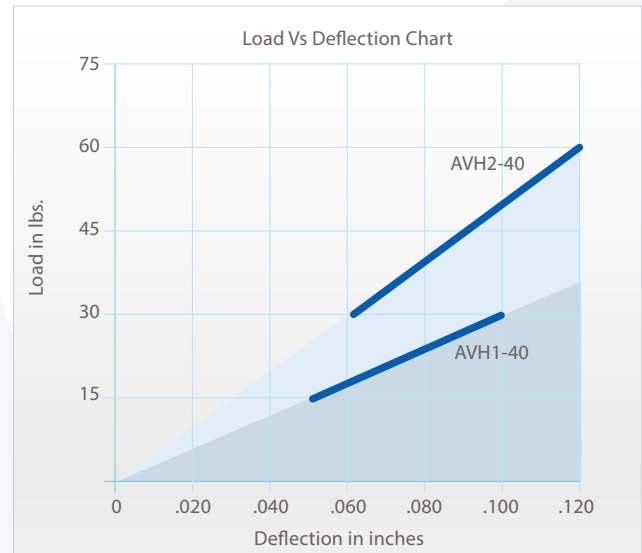

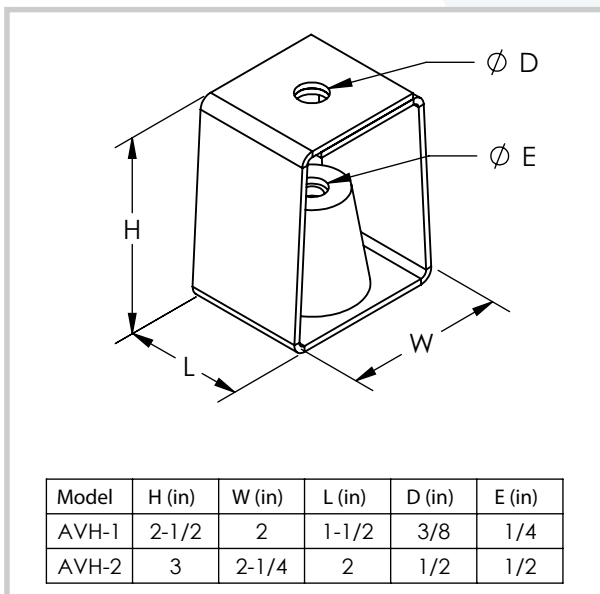

### Features:

- ✓ Light duty and very economical for less critical applications.
- ✓ Painted steel frame for better corrosion resistance.
- ✓ Fitted rubber inserts for better isolation of transferred vibrations and noise level reduction.

### Recommended for:

All hangers are used in installation of fans, A/C, pipes, ducts, transformers, air compressors, pumps, distribution cabiners, and other suspended structures and building services.

Model	Durometer Shore A	Load Range (lbs)	Deflection (in)
AVH-1-40	40	15 - 30	.100
AVH-1-70	70	40 - 70	.100
AVH-2-40	40	30 - 60	.120
AVH-2-70	70	70 - 140	.120
