

Vibrasystem's Cylindrical Mounts - Bobbins:

Very versatile and can be used in a wide range of applications where simple and compact anti-vibration isolations are required.

Features:

- ✓ **Low cost installation.**
- ✓ **Long service life.**
- ✓ **Available in wide range of sizes and loads.**

Designed For:

- Vertical load.
- Shear Load - maximum 20% of applied compression load.

Note:

- Type TS can be used as a bumper or anti-skid plate.
- Various configurations are available for added versatility for different installations requirements.
- Sizes in the table represent our stock items.
