

1", 2", & 3" DEFLECTION SEISMIC RESTRAINED CERTIFIED SPRING MOUNT/SNUBBER

The models **SRMT-4** (top levelling bolt) and **SRMF-4** (flat top with built-in levelling feature) are heavy-duty Seismic Restrained Certified Spring Mounts - Snubbers Combination. The uniquely innovative design incorporates interlocking top and bottom steel channels, which restrict the movement (snubbers effect) in all horizontal directions under lateral forces. Rubber lining inside bottom metal channels prevents metal-to-metal contact. **Vibrasystems Inc. isolators are tested and certified to ASHRAE 171-2017 for wind and seismic load resistance.**

Recommended for:

HVAC equipment, engine-generators (gensets), fan air circulation systems, compressors, pumps, chillers, AC units, cooling towers, inertia bases, etc.
